

CLASSROOM MANAGEMENT

Companycollege.com

BizLibrary's Classroom Management Module allows you to seamlessly blend your online training initiatives with your off-line, classroom-based initiatives, providing your organization with one tool to report on and manage all of your employee training and development activities..

FEATURES OF THE CLASSROOM MANAGEMENT MODULE:

- Online Registration for Off-line Resources
- Online Fulfillment of Off-line Resources such as Books, Videos, CD-ROM's
- Online Event Scheduling
- Online Instructor, Facility and Equipment Management
- Online Reporting on all Training Activities
- Online Approval Agent
- Integrated Messaging

Instructors have the ability to :

- view their class schedule
- create classroom schedules
- organize and manage a class roster and waiting list

Our Learning Management System is fully integrated with WebEx Training Center™, a virtual training tool that allows trainers to host, track, manage and report on virtual instructor-led training events directly from the LMS.
